About Journal

Journal of Applied Research in Electrical Engineering (J. Appl. Res. Electr. Eng.) is a single-blind peer-reviewed, **open access** and **free of charge** international journal published by Shahid Chamran University of Ahvaz in cooperation with Iranian Association of Electrical and Electronics Engineers (IAEEE). The JAREE is a medium for global academics to exchange and spread the latest discoveries and advances in their applied research in electrical engineering. The JAREE aims at presenting important results of analytical, computational and experimental works within all specialized fields of electrical engineering (electronics, power, control and telecommunications). It welcomes high quality original research papers from contributors throughout the world. All papers are subject to a peer reviewing procedure. Submission, processing and publication of the papers in JAREE is **free of charge**.

Types of accepted papers include:

- Research articles
- Review articles
- Applied articles

Research papers are expected to present innovative solutions, novel concepts, or creative ideas that can help to address existing or emerging technical challenges in electrical engineering.

Application papers are expected to share valuable industry experiences on dealing with challenging technical issues, developing/adopting new standards, applying new technologies or solving complex problems. JAREE welcomes application papers that can have a significant impact on industry practices in the coming years.

Review papers are expected to provide insightful and expert reviews, tutorials, or study cases on an important, timely and widely-interested topic in electrical engineering.

All researchers in the fields of electrical science are invited to publish their scientific and research achievements in this journal. Interested authors can submit their manuscripts in the journal's website. More information is available in the website on how to prepare and submit the manuscripts.

Amis and Scope

The *Journal of Applied Research in Electrical Engineering* aims to provide a medium for dissemination of innovative and consequential papers that present analytical, computational and experimental works within all specialized fields of electrical engineering (electronics, power, control and telecommunications). The scope of the journal includes, but is not limited to, the following topic areas:

Electronics:

- Optical electronics, photonics and solar cells
- Integrated analog circuits and mixed signals
- Integrated radio frequency circuits
- Digital electronics (VLSI)
- Semiconductor devices
- Sensor technology

Power:

- Dynamics and stability of the power systems
- Power system protection
- Electric power quality
- Operation and planning of the power systems
- High voltage insulation technology
- Flexible AC Transmission Systems (FACTS)
- Electric power distribution systems
- Smart grids, micro-grids, renewable energies and distributed generation
- Reliability of electrical energy systems
- Energy management and electricity market
- Electric machines and transformers
- Power electronic and electric drives

Control:

- Linear and non-linear control systems
- Adaptive, optimal and stochastic control
- Fuzzy systems, neural networks and intelligent control
- Robotic and mechatronic
- Modeling, Identification and optimization of systems
- Guidance and navigation systems
- Automation, industrial control and instrumentation

Telecommunications:

- Signal and image processing
- Wireless and cellular communication systems
- Telecommunication networks
- Radar and sonar
- Information theory and coding
- Cognitive radio
- Antenna design
- Microwave devices
- Wave propagation and electromagnetic compatibility

Guide for Authors

How to submit a manuscript

For the initial submission, the authors have to just send the main manuscript file and the signed [Copyright Form](#) of the journal. While preparing manuscripts for initial submission, authors are kindly requested to follow the guidelines, described below:

- The manuscript should be written in a Microsoft Word file (.doc or .docx).
- The file should include text (preferably in 10 points, “Times New Roman” font) and all figures (figures can be placed within the text at the appropriate point or at the end of the text).
- The manuscript pages should be prepared either using a double-column single-line spacing layout or a single-column double-line spacing layout. A margin of at least 1.5 cm on each side is required.
- All papers should be composed of Title, Author Name, Affiliation, Corresponding author email, Abstract, Keywords, Body, and References.
- The manuscript should be written in good English. It should have been carefully checked for clarity, conciseness, the correctness of grammar, and typographical errors.
- The corresponding author should sign the journal copyright form on behalf of any and all co-authors and upload it to the Journal’s Submission System when submitting the manuscript. The journal copyright form can be downloaded from [here](#).
- The corresponding author can use the [JAREE Template for Cover Letter](#) as a default text for the cover letter when submitting the manuscript.
- It is recommended that the title of the paper does not contain abbreviations or formulae.
- The abbreviations used in the abstract should be introduced both in the abstract and again on first use in the body.
- References should be numbered in the order they are mentioned in the text.

Manuscript Submission

Submission to this journal proceeds totally online and you will be guided stepwise through the creation and uploading of your files. All correspondence, including notification of the Editor's decision and requests for revision, takes place by e-mail. To submit your manuscript, click on the [Submit Manuscript](#) link on the journal's homepage. Then, click on [Register](#) to create an author account. A message is sent to your email address containing your username and password. Then, login to the Journal’s Submission System at the [User's login](#) page using the username and password to submit your new manuscript. Once you have logged in, you can change your password by clicking on the My Home link at the top menu.

Copyright and Open Access License

An author submitting a paper should ensure that he or she has the right to publish the paper and that it contains nothing defamatory. The JAREE will assume that all co-authors have agreed to the submission of any paper received. The corresponding author should sign the journal copyright form on behalf of any and all co-authors and upload it to the Journal’s Submission System when submitting the manuscript.

Contents

Article Title and Authors	Page No.
Compact All-Optical Encoder Based on Silicon Photonic Crystal Structure Mohsen Makvandi, Mohammad Javad Maleki, and Mohammad Soroosh	1
A Novel Design for an All-Optical Half Adder Using Linear Defects in Photonic Crystal Microstructure Saleh Naghizade, and Hamed Saghaei	8
Sizing Equations of Axial Flux Permanent Magnet (AFPM) Machine Based on an Analytical Method Hamid Radmanesh	14
Broken Conductor Fault Location in Power Transmission Lines Using GMDH Function and Single-Terminal Data Independent of Line Parameters Mahyar Abasi, Nima Heydarzadeh, and Arash Rohani	22
A New Peer-to-Peer Energy Trading Model in an Isolated Multi-agent Microgrid Mahyar Tofighi-Milai, Sajjad Fattaheian-Dehkordi, and Mahmud Fotuhi-Firuzabad	33
Design and Parameter Estimation of Series Resonant Induction Heating Systems Using Self-Oscillating Tuning Loop Behzad Jaafari, and Alireza Namadmolan	42
Improved Laser Beams-based Security Fence to Protect the Borders Rahim Ildarabadi, and Zohrah Keramat	50
A High-Performance MEMRISTOR-based Smith-Waterman DNA Sequence Alignment using FPNI Structure Mahdi Taheri, Hamed Zandevakili, and Ali Mahani	59
A Novel Energy-Efficient Weighted Multi-Level Clustering Protocol Ebrahim Farahmand, Ali Mahani	69
A Novel Method of Modeling for Dynamic Behavior of Hydro-Electric Turbines During Load Rejection Saman Ghahghazadeh, and Mohammad Reza Afsharnia	79
A Fault-Resistant Architecture for AES S-box Architecture Mahdi Taheri, Saeideh Sheikhpour, Mohammad Saeed Ansari, and Ali Mahani	86
Optimal Day-Ahead Scheduling of a CHP and Renewable Resources-Based Energy Hub with the Aim of Improving Resiliency During Input Energy Carriers' Outage Shabnam Rezaei, and Ahmad Ghasemi	93
